

# Preparing for emergencies

An earthquake strikes.  
A wildfire forces evacuations.  
An ice storm cripples local infrastructure.

## What do you do?

In the moment of a natural or human-caused disaster, you may not have time to prepare, so the real question is:

## What have you done?

Make a plan

Build a kit

Work together

### Download the FAQ

- Learn why emergency preparedness is necessary and what you can do to prepare
- A resource for commonly asked questions about emergency preparedness

### Receive emergency alerts

- Receive real-time information directly from local and federal sources
- Lane County ALERT ME! will send you emergency alerts via text or email for extreme weather events and other emergencies
