Over the last several years, we have taken steps to become more efficient, lower operating costs and reduce/restructure debt while still investing in capital projects for improved reliability.

As we welcome 2020 we once again see results of these efforts. For the fifth time in six years, we are keeping residential electric prices steady. And following a decrease in water prices in 2018, this marks the fourth year in a row without an increase in residential water prices.*

**Average Monthly Electric + Water Bill**
*Single Family Residence (1,600 kWh & 9 kgal)*

Did you know that EWEB acts as the billing agent for City of Eugene stormwater and wastewater services?

Charges related to stormwater and wastewater appear in the water portion of many customers’ bills, but are not EWEB charges. For questions about the stormwater or wastewater portion of your bill, please contact the City of Eugene by calling 541-682-4900.

Visit eweb.org to learn more about your bill.

*While water prices for EWEB customers will remain flat, our wholesale water customers such as the city of Veneta and the River Road and Santa Clara Water Districts will see a slight increase.

**Tualatin Valley Water District serves Beaverton, portions of Hillsboro and Tigard.
