

Materials Inventory Evaluation

The 1991 federal “Lead and Copper Rule” required water systems to identify the materials used in their distribution system. We completed a materials evaluation in 1992. It was updated and improved in 2016. We have not identified any lead pipe materials in our system, and less than 0.5% of our pipe material is unknown. We continue to work on identifying the remaining unknown pipe.

1992

Pipe Material	Miles
Distribution Pipe	
Ductile Iron	89
Cast Iron	58
PVC	36
Unknown	33
Steel	19
Concrete Cylinder	8
Asbestos Cement (AC)	6
Copper	1

2016

Pipe Material	Miles
Distribution Pipe	
Cast Iron	388
Ductile Iron	260
PVC	73
Asbestos Cement (AC)	27
Concrete Cylinder	10
Copper	7
Steel	7
High Density Polyethylene (HDPE)	6
Unknown	4
Service Line Pipe	
Copper	193
HDPE	42
Polyethylene (PE)	16
Cast Iron	2
Ductile Iron	1
PVC	1
Unknown	1
