

MEMORANDUM

EUGENE WATER & ELECTRIC BOARD

Rely on us.

TO: Commissioners Schlossberg, Brown, Carlson, Barofsky and McRae
FROM: Deborah Hart, CFO; Aaron Balmer, General Accounting & Treasury Supervisor
and Matthew Miller, Senior Accounting Analyst
DATE: May 26, 2021
SUBJECT: Highest and Best Use of Reserves
OBJECTIVE: Board Action

Issue

Annually the Board considers how to allocate funds as of December 31 among reserve and designated fund accounts after the independent auditors issue their opinion on the financial audit. This memo provides recommendations for transfers based on EWEB's strategic plans, financial policies, and the Electric and Water Utilities' financial conditions.

Background

On an annual basis, staff prepare a summary of the year-end reserve balances, compare the balances to the Board Financial Policy targets, and recommend transfers and/or uses of funds above target. Additionally, staff review targets to ensure they are reasonable to cover the intended risks. For both the Electric and Water Utilities, cash balances at December 31, 2020 remained above target. In addition, targets remain adequate, and debt service coverage requirements were met for the year. Management's recommendations are the same as those presented at the May meeting.

Discussion

COVID-19 impacts are continually being evaluated. Due to varying degrees of business closures, consumption has been and will likely continue to be adversely affected for the Electric System. For the Water System, consumption patterns have shifted from Commercial to Residential customer classes with overall consumption patterns remaining stable. 2021 budgets for both utilities reduced revenue assumptions because of the continued economic impacts and uncertainties from COVID-19, and budgets for rate funded capital and operating expenses were reduced in kind.

For the Water Utility, the Holiday Farm Fire had a devastating impact on the McKenzie Watershed and recovery efforts have been underway with future plans, partners, and possibilities still emerging.

For the Electric Utility, the 2020 wildfires resulted in emergency and ongoing restoration costs anticipated to be in excess of \$7 million. Staff are working with state and federal grant program administrators to reimburse EWEB for 75% of eligible costs. The majority of these costs have been incurred already, however, aspects of the Stone Creek transmission line restoration had been deferred subject to winter weather conditions and work has begun this spring. Upriver a number of meter and

service line replacements are contingent on rebuilding decisions by residents displaced following the fires. Reimbursement for emergency costs and completed restoration work is anticipated later in 2021. Reimbursement for ongoing restoration projects may be next year.

Excess funds above working cash targets provide flexibility for strategic decisions needed on emergent items with respect to continuing COVID-19 impacts and recovery from the Holiday Farm Fire. Given a continued state of uncertainty, Management recommends leaving excess funds in working cash as noted below.

Water Utility

A) Working Cash

Management recommends transferring \$2,000, in accordance with Financial Policies, to the Pension & Post-Retirement Medical Fund and \$9.0 million to the Rate Stabilization Fund. This would leave Working Cash at \$7.1 million above target to readily fund watershed recovery efforts or navigate strategic uses in the near future.

B) Capital Improvement Reserve

At December 31, 2020, this fund was approximately \$5.1 million over target. With large capital projects on the horizon, Management is not recommending a transfer at this time.

C) Rate Stabilization Fund

The Rate Stabilization Fund is intended to enhance the Utility's agility during financial challenges and minimize or smooth rate impacts to customers. Under existing bond covenants, deposits to the fund reduce the Debt Service Coverage ratio, while withdrawals increase the ratio. Funds may be used for one-time expenses and emergent items to be allocated based on the Board's direction. Management recommends transferring \$9.0 million to the Rate Stabilization Fund which moves the 2020 Debt Service Coverage ratio from 4.5x to 2.2x and within the Board's target range of 2.0 – 2.5x. Water's bond covenant requires the ratio to be at least equal to 1.25x.

D) Pension & Post Retirement Medical Fund

PERS costs during 2020 were lower than budgeted by \$2,000. Board Financial Policies require the variance to be transferred to this fund.

Electric Utility

A) Working Cash

Management recommends transferring a total of \$32,000 to the Pension & Post-Retirement Medical Fund. This would leave Working Cash at \$5.5 million above target and provide for continued strategic response to lingering COVID economic circumstances.

B) Power Reserve

The level of funding for this reserve is evaluated annually. In determining sufficiency of this reserve, risks from prices, loads, resources, and credit exposure are considered. Based on the analysis, Management is not recommending a change to the Power Reserve at this time.

C) Rate Stabilization Fund

Funds above target in the Electric Rate Stabilization Fund have been modeled as a funding source for

future Carmen Smith capital spending in the long term financial plan.

D) Pension & Post-Retirement Medical Fund

PERS costs were lower than budgeted by \$32,000. Board Financial Policies require the variance to be transferred to this fund.

Recommendation and Requested Board Action

Management is requesting approval of Resolution No. 2111, authorizing cash transfers. Attachments 1 and 2 provide detail on reserve balances and recommended transfers for the Water and Electric Utilities, respectively.

Attachment 1 – Water Utility Schedule of Cash Reserves

Attachment 2 – Electric Utility Schedule of Cash Reserves

**RESOLUTION NO. 2111
JUNE 2021**

**EUGENE WATER & ELECTRIC BOARD
RESERVE TRANSFERS**

WHEREAS, the Eugene Water & Electric Board is the body designated by the Eugene City Charter and City Code to administer the Electric and Water Utilities of the City of Eugene;

WHEREAS, the Eugene Water & Electric Board has set up procedures for evaluating reserve status after the annual audit;

WHEREAS, the 2020 annual audit is complete;

WHEREAS, the Eugene Water & Electric Board has reviewed year-end results;

THEREFORE BE IT RESOLVED that the Eugene Water & Electric Board hereby authorizes the General Manager to make the following transfers:

Water Utility

- 1) \$2,000 from Working Cash to the Pension & Post-Retirement Medical Fund
- 2) \$9,000,000 from Working Cash to the Rate Stabilization Fund

Electric Utility

- 1) \$32,000 from Working Cash to the Pension & Post-Retirement Medical Fund

Dated this 1st day of June 2021

THE CITY OF EUGENE, OREGON
Acting by and through the
Eugene Water & Electric Board

President

I, ANNE M. KAH, the duly appointed, qualified, and acting Assistant Secretary of the Eugene Water & Electric Board, do hereby certify that the above is a true and exact copy of the Resolution adopted by the Board at its June 1, 2021 Board Meeting.

Assistant Secretary
