

MCKENZIE WATERSHED HEALTHY FARMS CLEAN WATER PROGRAM

Promote Energy Efficiency and Renewables

Cascade Pacific Resource Conservation & Development (RC&D) Energy Program:

Cascade Pacific RC&D has received significant funding from the Bonneville Power Administration and NRCS Conservation Innovation Grant for their Energy Program, which helps farmers obtain up to 75% of project costs associated with energy efficiency improvements and/or renewable energy systems. This program is focused on reducing energy use and introducing renewable energy systems on farms to reduce operational costs and provide some level of energy redundancy.

For more information, contact Cascade Pacific at 541-967-5925 x4 or visit:
