

## Water Service Installation Charges

*This information is excerpted from the EWEB Water Policies and Procedures effective February 24, 2016.*

### Meter installation charge (new, pulled or size decreased)

Meter size	Pricing
5/8-inch	\$275
3/4-inch	\$305
1-inch	\$375
1 1/2-inch	At estimated cost

### Service installation charge (new or preinstalled, including meter)

Service size	Pricing
1-inch x 5/8-inch	\$2,750
1-inch x 3/4-inch	\$2,780
1-inch x 1-inch	\$2,850
1 1/2-inch	At estimated cost
Service size enlarged (any size)	At estimated cost

When a new service installation requires an excavation or other action that damages a street under the [City Street Cut Moratorium](#), an additional amount equal to the fine levied by the City will be added to the service installation charge.

## Water system development charges

*Water system development charges (SDC) have been developed and approved by EWEB in accordance to ORS 223.297 to 223.314. New services located in areas supplied through pressure levels 800 or above will be charged the upper level SDC. This information is excerpted from the EWEB Water Policies and Procedures effective May 1, 2016.*

Meter size	5/8 inch meter equivalent	SDC pricing (base)	SDC pricing (upper level)
5/8-inch	1	\$2,276	\$3,063
3/4-inch	1 1/2	\$3,415	\$4,594
1-inch	2 1/3	\$5,691	\$7,657
1 1/2-inch	5	\$11,382	\$15,314
2-inch	8	\$18,211	\$24,502
Greater than 2-inch	Calculated based on estimated maximum day demand expressed in 5/8-inch meter equivalents.		

*EWEB reserves the right to calculate the SDC for any new service manually if demand is inconsistent with assumptions established for developing the table of charges. Such instances may include but are not limited to, individually metered multi-family residential units, large irrigation services and other applications which fall outside the typical water use patterns in EWEB's service area.*
