

## Three Keys to Simple and Effective Air Sealing

Learn from the experts about how to use [Comfort Ready Home](#) resources to better serve your customers. In this 60-minute interactive webinar, our Comfort Ready Home technical lead, Dan Wildenhaus, will discuss recommended practices for air sealing Single-family homes. Topics include:

- Sealing top plates.
- Sealing recessed-can lighting.
- Sealing all chases.

The webinar also includes a program overview, the benefits of joining the [Comfort Ready Home Contractor Network](#), and an introduction to your local [Field Specialist](#). In addition, you will have an opportunity to ask questions and provide valuable input on future trainings. To attend this free webinar, click the registration button below.

**March 23, 2021**  
**8:00 a.m. - 9:00 a.m.**
