## Conditional Water System Development Charge Waiver Application

EWEB's Customer Service Policy allows the utility to waive, in whole or in part, the water System Development Charge (SDCs) for qualified low income development projects when specific eligibility criteria and utility financial metrics are met. EWEB relies on the City of Eugene to determine project eligibility for SDC exemptions.

NOTE: EWEB water SDC exemptions are dependent on funding availability and are not guaranteed.

### Acknowledgement and Agreement:

The undersigned specifically acknowledges and agrees that:

1. I understand that by accepting this application and documents for an SDC exemption, EWEB is in no way committing to actual funding or exemptions for my project. An SDC exemption will only be made if funds are available and after all documentation is received, including proof of City of Eugene approval for exemption from City SDCs.
2. In the event the property for which an exemption is granted ceases to be utilized for low-income persons or is sold or transferred for use other than housing for low income persons within five years from the date the City records the exemption, the person to whom the exemption was granted will be required to pay to EWEB the amount of the exempted water SDC, plus interest at the statutory rate.

By signing this Waiver Application form, I certify the information is true and is subject to verification by EWEB:
