

# Resources for Backflow Testers

## Creating Tester Account in VEPO CrossConnex

Version Date: 12/02/2022

Testers can create accounts for themselves, or company admins can create tester accounts.

**Note:** Tester accounts can be created from the website or the VEPO mobile app.

1. Navigate to <https://www.vepocc.com/>
2. Click on Create Account
  - a. Choose account type: Tester
  - b. Enter name (first and last), email, and password
  - c. Click Sign Up

**Note:** Passwords must be a minimum of 8 characters.

SIGN IN CREATE ACCOUNT

Account Type  
Tester

Your Name  
John Smith

E-Mail  
johnsmith@backflow.com

SIGN UP

3. From Tester Profile
  - a. Enter address and phone
  - b. Enter certification License info, including photo. Don't forget to click "Upload"

Certification License Picture

 Upload

✖ Clear All

4. Enter Gauge info, if applicable. Gauges can also be entered at the company level by the admin if gauges are shared across the company.
  - a. If you are not entering an individual gauge, click the trash can symbol to delete the line. Otherwise, you will get an error message.

Test Gauge Details

Serial ID	Manufacturer	Model	Calibration EXPIRATION Date	Calibration EXPIRATION Date Picture	Default
				 Upload (png, jpg)	<input type="radio"/>

5. Click on the Utilities to Request Approval, select EWEB, click check box:

Utilities to Request Approval

Eugene Water Internal Test Only  
 EWEB  
 Raleigh Water

6. Accept EWEB Terms & Conditions.
  - a. Click on the hyperlink "I agree with the terms and conditions"
  - b. After reading, check the I agree box and save.
