

Clean, accessible transportation is changing how Eugene moves

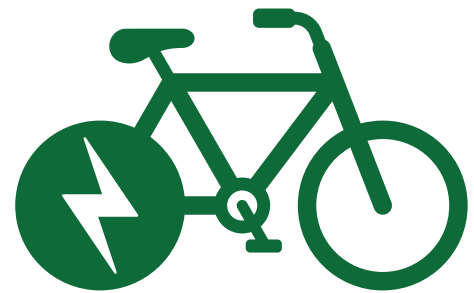

More and more people are choosing electric mobility options over gas-powered vehicles to reduce pollution, save money on fuel and maintenance, meet personal sustainability goals and help Oregon meet our climate goals.

We understand that while many people are choosing to purchase electric vehicles, they aren't accessible to everyone. With help from the Oregon Clean Fuels Program, EWEB is bridging the gap between availability and accessibility through our EV car share program, community grants and electric bike rebate.

🌱 RIDE INTO SUMMER WITH A \$300 ELECTRIC BIKE REBATE

EWEB's \$300 electric bicycle (e-bike) rebate is perfect for those who want to travel faster or need a little extra assistance than a standard bike can offer.

In addition to helping you save money on transportation costs, e-bikes reduce air pollution, relieve traffic congestion and promote physical and mental health benefits.

If you have a Class 1 or Class 2 e-bike, you can take advantage of the miles of bike paths and bike lanes we have throughout the city and surrounding areas. Remember, if you are on a Class 3 e-bike you'll need to use the regular lane of traffic.

🌱 SHARE AN EV

Through our partnership with Forth Mobility, we are excited to offer the GoForth Electric Car Share program. In Eugene, we have three electric car sharing stations:

- 🌱 St. Vincent de Paul - Iris Place
- 🌱 Lane Transit District - Santa Clara Station
- 🌱 City of Eugene - Broadway South

The GoForth CarShare program is state wide and a great opportunity to try an electric vehicle; use it to run errands around town, or even take a day trip out of town.

🌱 COMMUNITY GRANTS SUPPORT E-MOBILITY

EWEB grants five \$25,000 electric mobility community grants each year to non-profits, educational institutions or public organizations that are working to bring electric mobility to the Eugene community.

Find the programs that fit your goals and budget

I want to...

Save money and help the environment by reducing my energy and water use.

Live Green

Rebates & loans for:
Heat Pumps
Ductless Heat Pumps
Windows
Insulation & Air Sealing
Water Heaters
Toilet Rebates
Multi-family Units

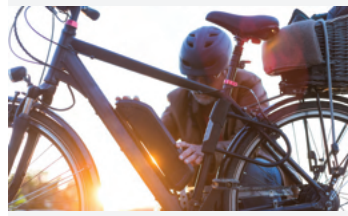

I want to...

Lower my operating costs and reduce my business's carbon footprint.

Work Green

Rebates & loans for:
Lighting
HVAC
Water Heaters
Food Service Equipment
Commercial Refrigeration
Windows & Insulation
Process & Manufacturing
Water Conservation

I want to...

Address transportation emissions, the top polluter in our community, by prioritizing electric mobility.

Move Green

Charging Station Rebates
E-bike Rebate
E-mobility Grant
EV Carsharing Program

I want to...

Make an extra investment to fund projects that benefit the environment.

Lead Green

Greenpower
Rooftop Solar Incentive
Cleanpower RECs
Carbon Offset Purchase
Carbon Forestry Lab

Your Board of Commissioners

Wards 6 & 7 Sonya Carlson (President)
Wards 2 & 3 John Barofsky (Vice President)
Wards 4 & 5 John Brown
Wards 1 & 8 Matt McRae
At-large Mindy Schlossberg

The citizens of Eugene elect five commissioners to four-year terms. They dedicate their service to the utility as volunteers without pay. Commissioners hold regularly scheduled public meetings on the first Tuesday of each month, typically at 5:30 p.m. Our customer-owners are welcome and encouraged to participate. Meetings are streamed live and archived on eweb.org/board.
