

Carbon Forestry Lab Schedule

1. Purpose

Promote and secure auxiliary funding for utility initiatives in the McKenzie River watershed for customers interested in natural climate solutions including carbon forestry, source protection, and carbon sequestration research.

2. Applicable

The customer account must be current and in good standing to maintain participation under this schedule. Electric or water service Customers that have experienced service disconnection due to non-payment may be prohibited from participating in this service for up to 12 months, or as reasonably determined by EWEB.

3. Administration

Funds received from customers under this schedule will cover program costs and will only be used for the express purposes of McKenzie River Watershed habitat investments and/or cost associated with the analysis of carbon impact of these investments.

4. Investments

Carbon Forestry Lab revenues will support material costs for trees, shrubs, protective materials, seedling transportation and storage. Customers may also choose to support funding for the annual carbon inventory and research work conducted by UO graduate students.

Surplus funds may also be utilized to secure additional project space within the McKenzie watershed through conservation easements, land use partnerships, or direct investment. Additional projects will adhere to the general structure, activities, and purpose of the existing High Banks project.

5. Monthly Price

The price of service under this schedule was established using the actual costs associated with the High Banks project. These costs reflect the prices paid for plant materials and activities conducted by the University of Oregon Soil Plant Atmosphere Lab. Program costs may be adjusted annually to ensure that customer contributions are commensurate with stated expenses and objectives:

Basic: \$6.50/mo. organic materials and maintenance only

Plus: \$8.50/mo. organic materials, maintenance, and carbon research activities.

6. Participation

Participation under this schedule shall not be limited to EWEB electric or water service customer base. All participants must establish an active Customer Information System account in order to facilitate monthly billing and payment for participation.

Participating customers may remove service under this schedule at any time. Future charges for service will not be incurred following cancellation. Service under this schedule may be

immediately removed from a customer account for failure to pay any charges relating to EWEB service.

7. **General Terms and Conditions**

Service under this schedule is subject to the policies and procedures of EWEB
