

## **Greenpower Schedule**

### **1. Purpose**

Provide a voluntary pricing option in support of the development and use of renewable energy. This schedule is offered in accordance with the Oregon Renewable Energy Act.

### **2. Applicable**

This service is available to both Residential and General Service customers.

The customer account must be current and in good standing to enroll in Greenpower. Customers that have experienced service disconnection due to non-payment may be prohibited from participating in this service for up to 12 months, or as reasonably determined by EWEB.

### **3. Administration**

Funds received from customers under this schedule will cover program costs and match Renewable Energy Certificate procurement and retirement to customer subscriptions.

### **4. Authorized use of funds**

Renewable Energy Certificates (RECs) – EWEB will retire an amount of RECs equivalent to the aggregate subscription volume for all Greenpower participants. A REC is a tradeable, market-based instrument that represents the legal property rights to the non-power, environmental attributes of renewable electricity generation. A REC is created for every megawatt hour (MWh) of electricity generated and delivered to the grid from a renewable energy resource. These resources may include:

- Wind;
- Solar;
- Certified low impact hydroelectric;
- Geothermal;
- Biomass;
- And any other resource that meets the EPA guidance and DEQ reporting requirements set forth in this schedule.

Solar Electric Program – Greenpower revenues are the exclusive source of funding for EWEBs Solar Electric Incentive program. This program supports the investment and installation of solar electric systems for residential and non-profit customers within EWEBs service territory.

Greenpower Grants – EWEB issues grant funding on an “as-available” basis. Recipients can receive up to \$50,000 for projects that promote a commitment to the environment and the community by increasing awareness and use of renewable energy sources, adoption of emerging technologies, and/or reducing or offsetting our community’s carbon footprint.

Education – Funding for local schools to support educational activities relating to renewable energy.

5. **Quantity**

Customers purchasing RECs under this schedule will have two subscription options:

- Full Requirements – A variable rate equivalent to 100% of kWh consumption billed under Energy Charges on the customer bill.
- Block purchases – Fixed amounts in increments of 100 kWh or 1,000 kWh

6. **Monthly Price**

The price of service under this schedule is additive to all other services, charges and/or fees.

Variable Rate: \$0.01 per kWh

Small Block of \$1.50 per 100 kWh block

Large Block of \$10.00 per 1,000 kWh block

7. **Participation**

Only EWEB electric services customers are eligible to participate under this service schedule.

Eligible customers may sign up at any time of the year. Charges and accounting for associated RECs will begin upon the next meter date following sign up.

Participating customers may remove service under this schedule at any time. Future charges for service will not be incurred following cancellation.

8. **General Terms and Conditions**

Service under this schedule is subject to the policies and procedures of EWEB
