### **Narrative:**

#### Operational Requirement and Alignment with Strategic Plan

The Board is being asked to approve Task Order D2 Amendment 5 with JACOBS, of Corvallis, Oregon. This amendment supports additional dam safety regulatory review and subsequent design changes that result in reduced dam safety risk. Recent spillway failures at other facilities has focused dam safety attention and subsequent investigations and design changes on similar facilities.

#### Contracted Goods or Services

Jacobs will prepare final designs, specifications, and support planning and scheduling estimates for the 100% Design documents for the Downstream Fish Passage facilities.

Task Orders and Amendments are scoped by the Project Manager consistent with dam safety and license requirements and negotiated with the Contractor. Billing rates match the rates negotiated as part of the Master Agreement and acceptable insurance certificates have been received.
