#### **EUGENE WATER & ELECTRIC BOARD**

TO: Commissioners Barofsky, Schlossberg, Brown, Carlson, and Morris

FROM: Deborah Hart, Assistant General Manager, CFO and Trojan Operating Committee

Member; Rob Freytag, General Accounting and Treasury Supervisor; Rica Sorensen,

Senior Accounting Analyst

DATE: October 29, 2025

SUBJECT: Resolution No. 2518: Trojan Operating Budgets

OBJECTIVE: Board Action

#### Issue

EWEB is required to approve budgets for its ownership share of the Trojan Nuclear Project. This is to occur at least 45 days before the new budget year, which begins January 1<sup>st</sup>. Budget approval is requested for the revised 2025 and proposed 2026 budgets. Bonneville Power Administration (BPA) pays 100% of EWEB's costs for the Trojan Nuclear Project under terms of a Two-Party Net Billing Agreement, dated October 5, 1970.

### **Background**

The Trojan Nuclear Plant (TNP) and Trojan Independent Spent Fuel Storage Installation (ISFSI) are jointly owned by Portland General Electric (PGE), EWEB, and Pacific Power & Light Company. PGE is the majority owner with responsibility for the TNP and operating the ISFSI.

EWEB assigned its 30% ownership share of TNP output to BPA in 1981. In return, BPA agreed to pay a 30% share of costs to operate the Trojan facilities. Decommissioning of the TNP began in 1993. As of 2005, all TNP radiological decommissioning was complete and the TNP's license was terminated. Operation and maintenance of the ISFSI will continue until the United States Department of Energy (US DOE) can take possession of spent fuel. According to terms of the 1982 Nuclear Waste Policy Act, the US DOE was required to construct and license a federal repository. However, the US DOE has been unable to fulfill that requirement or to provide a schedule for when they can take possession of spent fuel.

#### Discussion

The budgets presented for Board approval include 30% of Trojan's decommissioning and O&M for the ISFSI as estimated by PGE. The budgets are a revised budget for 2025 and a proposed budget for 2026. The revised 2025 budget decreased primarily due to outsourcing security functions.

BPA is reviewing the budgets prepared by PGE and will pay EWEB's 30% share. In addition, PGE

recovers operating costs for Trojan's owners with annual claims to the US DOE for reimbursement. In turn, EWEB passes those payments through to BPA.

The US DOE is reimbursing operating costs in accordance with a settlement agreement approved by the Department of Justice in 2013. The settlement obligated the US DOE to cover costs incurred through 2015. Since then, PGE has requested extensions of time for the agreement, and those requests have been accepted with challenges. Below is a history of payments from the US DOE as passed through from PGE to EWEB.
